# Egor Klimov

Intern Front-end developer

I'm a 19-years old student of BSU, Faculty of Mechanics and Mathematics, who is looking for an internship in Front-end. Also I'm interested in the DevOps field. I work well in teams and in large groups. My goal is to apply all my knowledge and skills to solve the problem and also gain new knowledge and skills which I'll use in the future.

Work Experience

Front-end developer
Rent Tycoon | June 2024 - Aug 2024

Took part in the development of the Web3 Start-Up. My task was developing a Telegram-bot which was used for minting in the project. Created a "Thank You" window, redesigned a referral drawer and fixed various UI issues. Used such technologies as: React + Typescript + Vite, Ton Blockchain, Telegram SDK, Telegram Mini Apps, framer-motion and other libraries, worked with API.

- Refactoring of the code.
- Add new features.
- Designing user interfaces.
- Optimization.
- Cross-browser and adaptive layout.

Education

Belarusian State University
Mathematics and Information Technology
2022 - present
